Electronic Claims
High-speed internet access is required to send Electronic Claims. A Modem may also be required to send electronic claims when using Revenue Management Direct.

Before installing any newer operating system, service packs or releases, call our technical support department.

You must meet the minimum system requirements for your operating system. Microsoft Home products are not supported; Microsoft Small Business Server products are not supported.

The above requirements are for the Medisoft software only. If you decide to run additional services (for example: DNS or Active Directory) you will need to add additional CPU's and/or RAM.

Wireless networks may be used in conjunction with Terminal Services only.

Above requirements for the Medisoft Billing software only, Medisoft Clinical users, please call for system requirements.
