

## MedAvant Payer ID Table

### **New Payer =**

Added since last publication. N = New Payer, C = Change to payer record.

### **Par/Non-Par =**

Par = Payers which participate with MedAvant in efforts to increase EDI volumes by subsidizing all or a significant portion of the cost of electronic transmission.

Non-Par = Payers which do not participate with MedAvant in programs to increase EDI volumes by subsidizing the cost of electronic transmission.

### **Payer ID =**

Is used to route claims electronically. Each claim must be associated with a payer ID. If using MedAvant's software, Envision Total, MedAvant can assign these numbers. Speak to your Implementation Coordinator or Account Executive for more information. If sending directly from your practice management system, speak to your practice management software vendor about where to store payer IDs. You may notice a change in Payer ID since our last update. Please note, MedAvant will continue to accept all previous codes.

### **Comm/Govn't/Paper =**

Comm = Commercial health plans and those participating Blue Cross and Blue Shield carriers.

Govn't = Medicare, Medicaid and non participating Blue Cross Blue Shield payers.

Paper = Payers that can not receive claims electronically. MedAvant prints to paper and mails to payer.

### **ST =**

State specific payers have state abbreviation, national payers are blank.

### **Provider ID Required =**

Payer has stated unique ID #'s are assigned to each provider or group. Contact your payer representative for more information. These #'s must appear on each claim record.

### **Enrl., Auth. Authorization =**

Payer requires notification and/or paperwork be completed prior to sending claims. Contact MedAvant's Enrl., Auth. department for more information. (800) 792-5256 x 1.

### **Response Level =**

This indicates the claim status response you will receive back from MedAvant, the payer and/or trading partner. These are the response level classifications:

**MedAvant Acknowledgment - Indicates that MedAvant acknowledges claim, payer does not.**

**Payer Acknowledgment -** Indicates a batch level response from the payer and/or trading partner.

**Payer Claim Status -** Indicates a claim level response from the payer. For more information on the status message, please call the payer.

### **Test =**

Provider must test with payer in addition to MedAvant.

---
