

CODING TOOLS

ENCODER PRO

Save Money and Time, Increase Reimbursement

Encoder Pro Professional integrates with Medisoft to enable users to simultaneously search procedural and diagnostic codes to deliver integrated search results, code details and descriptions - with a single keystroke and without costly code books!

Make the right coding decisions using these powerful features:

- Code Logic Search Engine. Easily search all three code sets simultaneously
- Descriptions, HCPCS Annotations, IDC-9 and ICD-10 Section Notes provide important non-clinical content helps novice to experienced coders select codes quickly, accurately and with confidence
- Surgical Cross-Codes help users find all CPT add-on codes for primary procedures and verify the correct match between code sets
- Find cross codes for CPT™ and HCPCS Level II procedures
- Notepad, Bookmarks and Sticky Notes provide convenient ways to document and benefit from each code search.

Checking Crosscodes:

Choose your procedure code and crosscheck to get a list of recommended Diagnosis codes.

(ICD-9 and ICD-10 codes)

medisoft™

The screenshot displays the 'Procedure Search' window with 'OSTEOTOMY' entered in the search field. The 'Tabular Results' section shows a list of codes including 25350-25394. A 'Code Detail' window is open for code 25350, showing its description: 'Osteotomy, radius; distal third'. A red arrow points from the 'Code Detail' window to a 'CPT® Crosscodes - 25350' window. This window lists several crosscodes, including M21.733, M21.734, M21.739, M21.931, and M21.932, each with a corresponding description.
