

It's Time To Go Mobile With Medisoft Network Pro V20

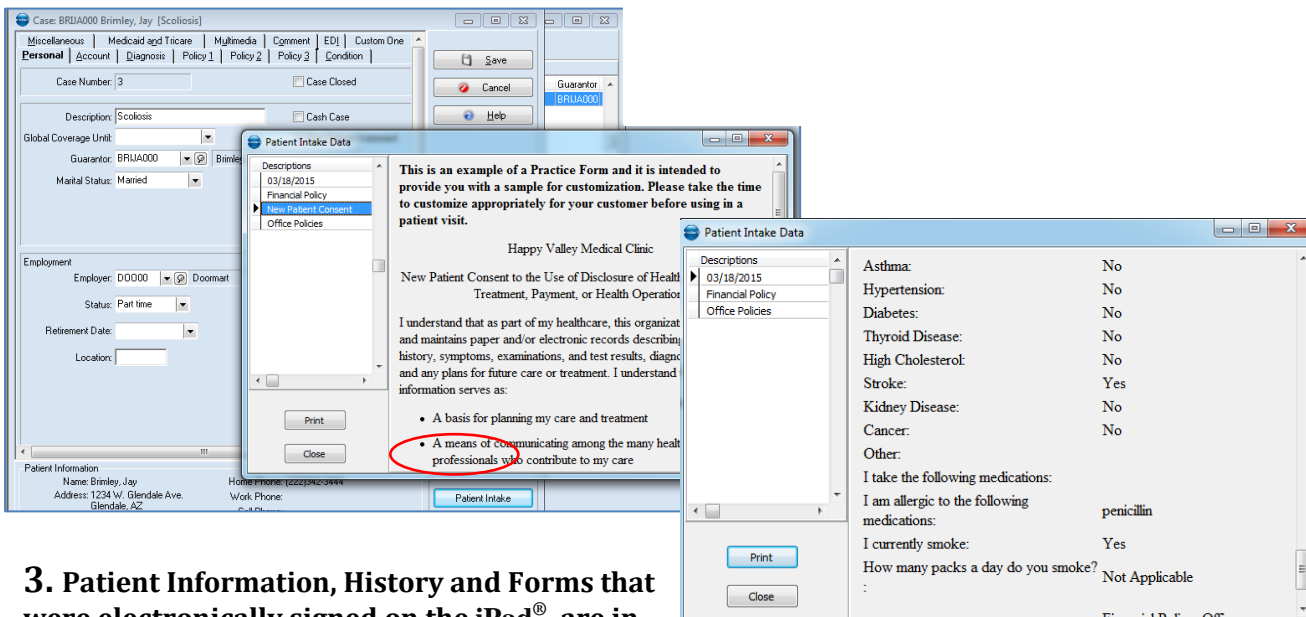

Medisoft Mobile is a free application for your iPad® device. Combined with Medisoft v20 Network Professional, Medisoft Mobile will help your practice run smarter and improve productivity.

1. Save data entry time by having the patient enter/update their information and medical history on an iPad® in the waiting room.

Patients can also review and sign policy and release forms electronically.

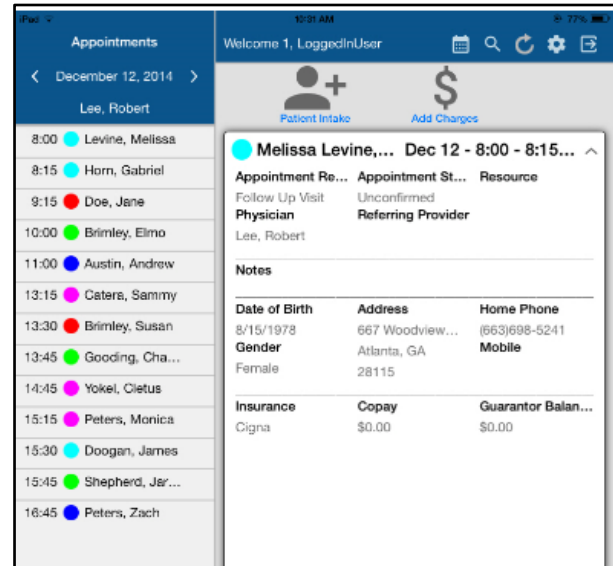

2. In Medisoft there is a new 'Pending Patients' list, updated fields are highlighted in yellow as easy reference for your staff.

3. Patient Information, History and Forms that were electronically signed on the iPad® are in the Patient's Case, they can be viewed by clicking on the new 'Patient Intake' tab.

Medisoft Network Professional V20 and Medisoft Mobile solutions for iPad® can also help you:

View your schedule and basic patient information from any treatment room
